

Adam Garry

Adam Garry is a former elementary school teacher. He has presented at numerous conferences around the world, including for the International Society of Technology in Education. Over the past several years, Adam has consulted in school districts across the United States on school reform, professional development, 21st century skills, technology integration, curriculum and instruction, and leadership. He was also one of the facilitators for the Partnership for 21st Century Skills professional development affiliates program and ISTE's School 2.0 workshops.

Adam has written many articles on technology integration for several education magazines and authors his own blog.

He received a bachelor's in elementary education, a master's in teaching and learning with a technology emphasis, and a certificate in administration and supervision from Johns Hopkins University.

Presentation Titles

- 21st Century Learning Environments
- Teaching the iGeneration
- Learning 2.0

Adam's PD comes in a variety of formats, from customized workshops and keynotes to interactive web and video conferencing.

Products

Teaching the iGeneration 5 Easy Ways to Introduce Essential Skills With Web 2.0 Tools

By William M. Ferriter and Adam Garry

Find the natural overlap between the work you already believe in and the digital tools that define tomorrow's learning. Each chapter introduces an enduring life skill and a digital solution to enhance traditional skill-based instructional practices. A collection of handouts and supporting materials ends each chapter. 256 pages
